SUMMARY

Full Stack Developer and a *debug master* 🙌.

Over my *9 years* of experience, my deep passion of computer science and always trying to give my best *doing what I love* ❤️ has made one of the *best*.

My technical expertise spanned across several technologies until I landed at *PERN stack*.

While most of my experience has been in independent roles, I am continuously seeking *opportunities to grow* and prove my *skills* and be a better *me*.

EDUCATION

Master's degree

Computer Science

📅 2017 - 2022

📍 Ahmad Zabana

Master's degree in *computer science* among the *top 5%*. 🎓

Experience

Freelancer

At [MOSTAQL](#)

📅 2020 - Present (*4+ Years*)

📍 Remote

Completed *30+ projects* on Mostaql with consistent *5-star* reviews by prioritizing *client satisfaction*.

Fullstack Developer

[Alnurayn.org](#) website Project

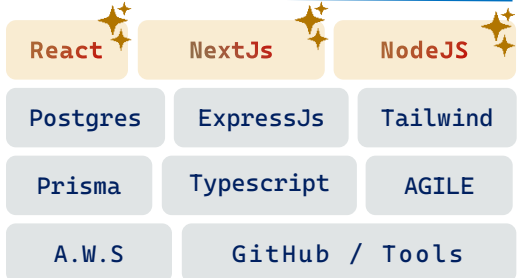

📅 2022 - Present (*2+ Years*)

📍 Remote

Solo-developed alnurayn.org, developing my *project management*, *time management* and *test-driven development*.

Developed a *super-fast C++* search engine that integrated with *NodeJS* to provide the necessary *performance* required to search thousands of documents in milliseconds.
